

Value-Based Application Onboarding Accelerator

Find the applications your onboarding program is leaving behind.

Turn a stalled onboarding program into a faster, business-led model that delivers measurable value.

Incomplete inventories, unclear ownership, manual coordination, and disconnected priorities can slow application onboarding and limit visibility into identity modernization progress and ROI.

MajorKey's Value-Based Application Onboarding Accelerator combines advisory expertise, workflow automation, and real-time visibility to create an efficient onboarding engine.

The resulting roadmap balances key indicators to identify priorities instead of allowing the loudest requests to determine which applications are onboarded first.

WHAT'S INCLUDED?

- ✓ A current state assessment and application inventory
- ✓ An analysis of onboarding bottlenecks, constraints, and ownership gaps
- ✓ MajorKey's value-based prioritization model
- ✓ A KPI baseline for measuring success and outcomes
- ✓ An executive-ready application onboarding roadmap

WHAT DOES THE ACCELERATOR PROVIDE?

Prioritized Applications	Focus resources on apps with the biggest risk, user, and business impact.
Expanded Governance	Bring the broader application portfolio into view and onto the roadmap.
Clear Business Ownership	Align leaders and app owners early around priorities and outcomes.
Improved Visibility	Track ownership, status, blockers, coverage, and value through KPIs.
Efficient Scaling	Automate workflows and measure progress, risk, and ROI.
Faster Onboarding	Standardize intake, approvals, and handoffs to reduce manual effort.

Why Choose MajorKey?

MajorKey connects identity strategy to execution through a proven value-based onboarding methodology that combines advisory expertise, stakeholder-driven prioritization, workflow automation, and measurable outcomes. We begin with an assessment and roadmap that can scale into a sustainable onboarding program, reducing access friction, expanding governance coverage, and demonstrating the value of identity investments.
