

Efficiently safeguard non-employee identity security gaps with SailPoint NERM.

Mitigate the risk of costly third-party breaches averaging \$4.29 million.¹

MajorKey provides advisory, integration, and managed services around SailPoint NERM delivered through its highly skilled teams of onshore, nearshore, and offshore resources.

Between contractors, partners, seasonal workers, vendors, and non-human identities, organizations manage a wide range of non-employee identities. MajorKey and SailPoint NERM help you gain visibility into what they have access to in your organization, why they have access, and what they're doing with that access.

Take control of your non-employee identities with MajorKey and SailPoint NERM

- ✓ Efficiently coordinate non-employee lifecycles
- ✓ Maintain a single identity for every non-employee
- ✓ Enforce compliance controls for SOX, PCI, HIPAA, and more
- ✓ Utilize risk-based strategies to mitigate the risk of breaches
- ✓ Auto-remediation for non-compliant identities
- ✓ Automate user provisioning and reduce over-provisioning
